

FT-SDS NCF

High End Performance NCF Schuko Socket

フルテックが専売する電圧防止の特殊素材を食んだ製品です。振動吸収効果及び熱電気効果が非常に高い影響を与えます。
This FURUTECH product incorporates a special artificial crystalline material with exceptional vibration damping properties for improved sound quality -- NCF is only found in Furutech products.

RATING

Type: 2-pole+earth; Rating: 16A 250V A.C

FEATURES

Nano Crystal² Formula - Nano Crystalline, Ceramic and Carbon Powder

Incorporated into select Furutech products, Nano Crystal² Formula --- NCF is comprised of a special crystalline material that has two “active” properties. First, it generates negative ions that eliminate static and secondly, it converts thermal energy into far-infrared. Furutech then combines this remarkable crystalline material with nano-sized ceramic particles and carbon powder for their additional “Piezo Effect” damping properties. The resulting Nano Crystal² Formula is the ultimate electrical and mechanical damping material – only found in Furutech products!

SPECIFICATIONS

- α (Alpha) Pure Copper main Conductor (t: 0.5mm)
- Insulation Materials: Nylon/fiberglass with special “NCF” anti-resonance damping material nano-sized crystalline, piezo ceramic particles and carbon powder
- 1.0mm thick Zinc/steel brace plate Base Bracket
- Specified for wire diameters of 2.8mm or 5.5 Sq.mm/10AWG Max. (set screw)
- Dimensions: 54.8mm (L) x 54.8mm (W) x 52.0mm(H)
- Furutech’s total attention to detail and build quality extends right down to a specially designed patent-pending pressure plate that increases the contact area of the Alpha Conductors.

Important customer notice:

Only products sold by authorized Furutech dealers are covered by warranty. In order to obtain warranty service, proof of purchase from the authorized Furutech dealer must be provided to either the Furutech dealer or the Furutech distributor in the country of purchase. The team at Furutech and our partners worldwide thank you for your understanding.
