

FP-803 (R) / (G) Furutech High Performnace Binding Posts

RATING

Furutech High Performance Binding Posts FP-803(G) and FP-803(R)

All audiophiles search for the same qualities: Verisimilitude to the original event, a sense of engagement promoting suspension of disbelief, a visceral immersion in the audio video experience. They also know that everything in the signal path makes a difference, and that includes speaker binding posts.

Furutech's beautifully finished, beautiful sounding Binding Posts are the result of meticulous engineering and careful audition of various suitable materials. The FP-803 features α (Alpha) phosphor bronze conductors for minimal impedance and nonresonant matte black finished eutectic copper alloy housings.
